	<b>TOTAL</b>	<b>330</b>				

\*In many instances, the number of FTEs shown for a function code includes both commercial exempt and commercial core in-house. (FTEs have been classified as commercial core in-house for the following reasons: 1) FTEs perform core functions of the agency; 2) FTEs provide specialized technical expertise, factual and legal; 3) Access to confidential business information or business proprietary information is restricted by statute to ITC employees; and, 4) Ethical and conflict-of-interest problems will arise if FTEs are contracted out.) However, for each function code the number of commercial exempt included amounts to less than 10. Also, for each function code the number of FTEs shown is the sum of the time spent by applicable employees agency-wide in increments of one tenth of a workyear.
